Now I would like to describe some proposals that may be on the ballot this November or in the future...

__24. A group that wants to increase the minimum wage in Michigan claims it has collected enough valid petition signatures to require the Legislature to either enact their proposal, or, if they fail to act, require the proposal to be placed on the ballot in November so voters can decide if it should become law. The proposal would increase the minimum wage in Michigan from \$7.40 per hour to \$10.10 per hour in three stages through January 2017. After that, the minimum wage would continue to increase by the rate of inflation. The minimum wage for tipped employees, like restaurant servers, would increase to \$3.50 per hour and then continue to increase by 85 cents each year until it reaches \$10.10 per hour in nine years. Based on what you know or have heard or read about this proposal, if the election were held today, would you vote YES to increase the minimum wage as I just described it, or, would you vote NO to oppose it? [IF UNDECIDED, ASK: “Well, if the election were held today and you had to decide right now, would you lean toward voting YES or NO?” AND CODE BEST RESPONSE]

35%	Vote NO -----ASK Q. 25
4%	Lean toward voting NO -----ASK Q. 25
5%	Undecided/Refused -----GO TO Q. 26

__25. What is the main reason why you oppose a proposed increase in the minimum wage to \$10.10 per hour by January 2017? [**WRITE COMMENT AS STATED**]

N=234

19%	Increase the cost of all goods and services – Increase inflation
18%	Will hurt Michigan’s economy
16%	Those are low skilled jobs - not career jobs
12%	Will hurt small businesses
11%	Will increase unemployment – lead to more layoffs
9%	Too much of an increase too fast
4%	Will hurt All businesses
3%	Government should not be involved – the market should dictate the wage
3%	Other wage earners do not benefit – closes the gap – will further destroy the Middle Class
2%	Not needed at all
2%	Should Not be put to a vote – people voting on their own pay raises
1%	There will be no corresponding increase in Social Security
---	Other/Undecided/Refused

__26. If a proposal appeared on a future election ballot that would allow same sex marriage in Michigan, if the election were held today, would you vote YES to allow same sex marriage in Michigan, or, would you vote NO to oppose it? [**IF UNDECIDED, ASK: “Well, if the election were held today and you had to decide right now, would you lean toward voting YES or NO?” AND CODE BEST RESPONSE**]

45%	Vote NO

__27. Turning to the minimum wage again, the Michigan Senate passed legislation that would repeal the current minimum wage law and replace it with a different law to increase the minimum wage in Michigan from \$7.40 per hour to \$9.20 per hour, and for tipped employees like restaurant servers from \$2.65 to \$3.50 per hour in four incremental stages by January 2017. After 2017, the minimum wage would increase by the rate of inflation or 4 percent, whichever is less. This proposal is now under consideration in the Michigan House of Representatives. Based on what you may know or have heard or read about this proposal, do you favor or oppose it? [**IF FAVOR/OPPOSE, ASK: “Would that be strongly or somewhat?” AND CODE BEST RESPONSE**]

17%	Strongly favor

42%	TOTAL OPPOSE
15%	Somewhat oppose

9%	Undecided/Refused

__28. Thinking about the two proposals to raise the minimum wage, which proposal do you prefer – [ROTATE] the one by petition drive to raise the minimum wage to \$10.10 per hour, or the one passed by the Michigan Senate to raise the minimum wage to \$9.20 per hour? [IF RESPONDENT PREFERS EITHER, ASK: “Would that be strongly or somewhat?” AND CODE BEST RESPONSE]

30%	Strongly prefers petition drive to raise minimum wage to \$10.10
9%	Somewhat prefers petition drive to raise minimum wage to \$10.10
39%	Total prefers petition drive to raise minimum wage to \$10.10
38%	Total prefers proposal passed in the Michigan Senate to raise minimum wage to \$9.20
22%	Somewhat prefers proposal passed in the Michigan Senate to raise minimum wage to \$9.20
16%	Strongly prefers proposal passed in the Michigan Senate to raise minimum wage to \$9.20
18%	Prefer neither – should not change the minimum wage (<i>volunteered</i>)
5%	Undecided/Refused

__29. If the proposal by the Michigan Senate to increase the minimum wage to \$9.20 per hour by January 2017 becomes law, by repealing the current minimum wage law, it would effectively nullify the petition drive to collect petition signatures to increase the minimum wage to 10.10 per hour, because the law that would be amended would no longer exist. Knowing this, do you approve or disapprove of the action taken by the Michigan Senate to pass a minimum wage bill in a way that invalidates the petition drive to raise the minimum wage to \$10.10 per hour? [IF APPROVE/DISAPPROVE, ASK: “Would that be strongly or somewhat?” AND CODE BEST RESPONSE]

11%	Strongly approve
18%	Somewhat approve

54%	TOTAL DISAPPROVE
14%	Somewhat disapprove
40%	Strongly disapprove

__36. As a way of providing up to \$1.2 billion dollars in additional, new funding for improvements and repairs to Michigan roads that experts say is needed, there may be a proposal on a future election ballot that would increase the state sales tax by 1 cent from its current 6 cents for every dollar spent to purchase goods, excluding food and drugs, to 7 cents, with all of the funding from the 1 cent increase dedicated for road repairs and improvements. If this proposal were placed on the ballot and the election were held today, would you vote YES to increase the sales tax by 1 cent to increase funding for roads, or, would you vote NO to oppose it? **[IF UNDECIDED, ASK: "Well, if the election were held today and you had to decide right now, would you lean toward voting YES or NO?" -- CODE RESPONSE]**

__37. The Michigan Legislature is considering another a proposal that would increase funding for road repair and improvements by more than \$400 million dollars. The proposal would repeal the current 19 cents per gallon sales tax on regular gasoline and 15 cents per gallon on diesel fuel and replace it with a 6% sales tax on the wholesale price of both types of gasoline. Another provision would earmark 1 percent of the 6% use tax collected on transportation funding to provide almost \$250 million dollars for roads. __38. Some people have suggested that a good way to provide the increased funding needed to improve and repair the roads is to change to a system where motorists pay a new fee that would be based on several factors, including the number of miles they drive, the time of day they travel, the route taken and the weight of the vehicle they drive.
